

Topic - Zanzibar
Year 5/6
Introduction - Where in the world?

Title Page for the Introduction of the topic Zanzibar

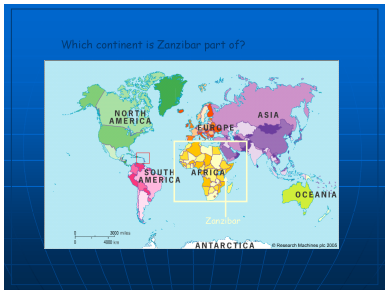

ICT
Use the pen and line tool on the whiteboard to do this, or if you have a network and a suite they could all sit at a computer and do it, (or if you are lucky enough for your whole class to have a laptop like us)

English
Using the KWHL Grids, as a class the children share the knowledge that they already have about Zanzibar.

Geography
Click on the spinning world to proceed to the next slide which will allow them to find Zanzibar on the map. Before doing this they could use an atlas themselves to try and locate it.

Geography

The children will now be able to see what part of the world Zanzibar is in as well as the sea. Ask them to show you Zanzibar on the map. If they are struggling, click on the map to allow the screen to be filled.

Shared Reading

Children can read the information about Zanzibar.

Geography

Reading this will give the children some general knowledge about the Island as well as maybe answering some of the questions they wrote on the KWHL grid.

ICT

If you have active studio you could use the spotlight tool to look at one of the information circles at a time.

Zanzibar

- Zanzibar is a mainly low lying island, with its highest point at 120 metres
- It is located in the Indian Ocean
- It is 108 km long and 32 km wide
- The most commonly practiced religion is Islam
- Zanzibar's currency is Tanzanian shilling

Geography

Using the close up map of the Island will allow you to talk more about its size and shape. Ask the children to write around the map the things that they notice. For example, it only has one main road, the number of airports and so on.
